

MOHAMED AYMAN AYAD

Junior Data Analyst | Power BI Developer | Cybersecurity Enthusiast

El Menoufia, Egypt | +20 103 046 2092 | ta872008@gmail.com | [linkedin.com/in/mohamedayad-382274328](https://www.linkedin.com/in/mohamedayad-382274328) | github.com/AYAD2412

PROFESSIONAL SUMMARY

Computer Engineering student and Junior Data Analyst with hands-on experience building end-to-end Power BI dashboards, ETL pipelines, and DAX analytics across datasets exceeding 500K rows. Reduced model size by 59%, delivered 8-page executive reports, and processed 300K+ records with zero data loss — skilled in Power BI, SQL, Excel, and Python.

TECHNICAL SKILLS

BI & Analytics: Power BI · DAX · Power Query · Data Modeling · ETL · Dashboard Development · Excel (Pivot Tables) · SQL for Data Science (Querying, Filtering, Aggregation, Joins)

Programming: Python (Pandas, NumPy, Scikit-learn, OOP) · C++ · SQL · MySQL · Oracle DB 11g · HTML · CSS

CAD & Design: AutoCAD · SolidWorks · Canva (Marketing Ads, Posters, Social Media Creatives)

Networking & OS: Cisco Packet Tracer · Wireshark · SOC Fundamentals · Linux · Git · GitHub

Soft Skills: Analytical Thinking · Problem-Solving · Self-Directed Learning · Team Collaboration · Attention to Detail

KEY PROJECTS

App Store Reviews Analytics — 300K Dataset · Power BI · DAX · Power Query | Apr 2026

- Processed 300K rows / 35 columns (71 MB → 29 MB); engineered 20 DAX measures (Churn %, NPS, Retention 7d/30d); built 8-page executive dashboard across 5 apps and 5 countries.

Maven Toys Retail Performance Dashboard · Power BI · DAX · AI Visuals | May 2026

- Designed a multi-dimensional data model connecting Stores, Products, and Sales tables; applied AI-powered Key Influencer analysis to identify top revenue drivers — delivered across a 6-page Dark Mode report with Shape Maps and Drill-Through.

System Performance Dashboard — 500K+ Rows · Power BI · DAX | Apr 2026

- Analyzed CPU/Memory usage, error rates, and downtime across 500K+ rows; engineered KPIs (Error Rate %, Performance Score) across 3 interactive dashboards.

Machine Learning & Deep Learning Portfolio · Python · Scikit-learn · Google Colab | 2025

- Implemented and compared ML/ANN models for classification and regression; applied preprocessing and evaluation.

TRAINING & EXPERIENCE

Data Analyst Trainee · London Innovation Academy | 2025 – Apr 2026

- Engineered 20+ custom DAX measures and full ETL pipelines across 5 projects, transforming raw datasets of up to 500K+ rows into interactive multi-page Power BI dashboards.

Innovation & Entrepreneurship · InnovEgypt Program — ITIDA & TIEC | Feb 2026

- Completed 45-hour program; built and presented a startup concept through ideation and prototyping — earned Certificate of Acknowledgement from ITIDA.

Cybersecurity Track Participant · Microsoft Student Club (MSC) — NMU | May 2026 – Present

- Completed hands-on labs in Linux fundamentals and network security concepts, applying skills through structured milestone-based assignments within MSC Cybersecurity Track.

EDUCATION

Associate's Degree — Computer Systems Networking & Telecommunications · Menoufia National University, El Menoufia | Oct 2024 – Jun 2029

Coursework: Data Analysis · OOP · Data Structures · Networking Fundamentals · Digital Design · Process Control & Instrumentation

CERTIFICATIONS

- Networking Basics** — Cisco Networking Academy
- InnovEgypt Certificate** — ITIDA & TIEC (Feb 2026)
- Learning Excel: Data Analysis** — LinkedIn Learning (Aug 2025)
- SQL Training Essential** — LinkedIn Learning
- Intro to Python** — MaharaTech – ITIMooCa (Jan 2026)
- AI Threat Detection** — Archon Vanguard (Jan 2026)
- Excel & Power BI** — London Innovation Academy
